

## Sailing Lessons

Sailing trips are usually 2 + hours long. This allows the time to rig and unrig the boat, explain all the equipment, tell tales and explain the different points of sail. The sailboat is then put in your control and, with our guidance, we sail past the most breathtaking scenery on the East Coast. The sailboat is clean, dry, has full keel, and is Coast Guard equipped. Snacks and beverages can be brought along and we recommend extra warm clothes.

Sail Lesson Cruise Cost: \$295 (2 people) \$50 each additional

## Captain Services

If you want to rent a sailboat or motorboat but "leave the driving" to someone else so that you can enjoy your time with family and friends, consider taking advantage of our Captain Services.

U.S.C.G. Captain Robert Wellborn will accompany any boat (power or sail) for 18% of boat rental fee. Relax and let Robert take the responsibility of boat damage and navigation problems off your mind. Robert has a 50-ton captain's license with sail endorsement. He has been with us for several years and his trips on the Cal 25 sailboats have been the highlight for many summer vacations.

## Boat Rental Information

First-time customers must be checked out on the water. We reserve the right to refuse boat rentals to unqualified customers. We explain a good course according to what you desire - seal trip, osprey nests, sightseeing, or lunch at one of the islands. Trips are marked on an area chart supplied with boat.

Leases are signed at the Mansell House where my wife Leslie, co-owner and founder, rents overnight accommodations on the ocean (cell# 207-610-0004). After the lease is signed, we take a short walk to our private pier where we briefly explain the chart, sail area, and operation of boat. The boat is then rigged and made ready to sail before you leave the pier.

Upon return at 4:00 p.m., we meet you on Mansell pier and return the boat to a protected mooring.

Note: Have cell phone charged in case of emergency. Navigational limits marked on chart must be observed.

### 2019 Season

Rates do not include gas and are for one-group. Tips are appreciated • Cash or personal check is desired • *VISA & MasterCard Accepted*

## Boat Rentals in the heart of Acadia National Park, Maine

The views of the mountains from the ocean are spectacular. Our location at the southern end of Mount Desert Island provides the perfect vantage point to explore many of the inlets, Somes Sound, and several of the out islands including Cranberry Island and Sutton Island where you can observe seals and osprey nests.

Somes Sound runs seven miles north to south from the middle of Mount Desert Island to where it opens to the Atlantic Ocean. Villages along its shore include Somesville, Northeast Harbor, Southwest Harbor, and Manset, the southern section of Southwest Harbor that includes some world-renown yacht builders.

### U.S.C.G. Captain Sol Fraley

- Born & raised on Mount Desert Island
- Experience includes commercial fishing, sailboat racing, research vessels and charter tours
- Private morning power or sail trips 8:30 - 11:30 a.m.
- \$395 for 2 people, \$50 per extra, gas not included

Morning is the best time to be on the water. This allows Captain Fraley to show you the area while the fishermen are beginning their day.

### Sightseeing Tours

Personalized sightseeing tours are available as an added option for people renting our boats. These narrated trips are from 10:30 a.m. to 3:00 p.m. and are by reservation only. Captain Welborn is very familiar with Acadia National Park and the waters and wildlife around Mount Desert Island.

### The Owner

Born and raised on MDI, Chuck Watson learned to sail as a young boy while employed by the Ford family (Henry Ford's heirs) in Chuck's home town of Seal Harbor. After attending college, he was a high school teacher at one of the local schools for nine years before returning to his first passion, boating and the sea. Chuck has rented boats and taught sailing in Southwest Harbor, Maine for over 45 years.
